

Capita SIMS Requirements

Updated: January 2016

© Wonde Ltd

Hardware Requirements

Wonde SIMS has the following hardware requirements:

Windows Server	2008 R2 2012 2012 R2
Windows Client	Windows 7 Windows 8.1 Windows 10
.NET Framework 4.5.2+	
Windows Administrator Access	

Network / Firewall

Wonde uses the “West Europe” Azure Service Bus for real time communication between your server and Wonde. This service requires the following outbound ports are open, IP addresses are whitelisted and domains are not blocked by a proxy. Due to Azure being a cloud service this list of IP addresses could change at any time, Wonde will attempt to keep this list as up-to-date as possible.

Ports (outbound)	IP Addresses	Domains
9350/tcp	94.245.97.0/24	*.wonde.com
9351/tcp	65.52.128.0/19	wonde.servicebus.windows.net
9352/tcp	70.37.103.187	workos.servicebus.windows.net
9353/tcp	23.98.46.0/24	
9354/tcp	104.46.32.0/19	
5671/tcp	104.45.64.0/20	
5672/tcp		
443/tcp		
80/tcp
