Capita SIMS Installation

Updated: January 2016

© Wonde Ltd
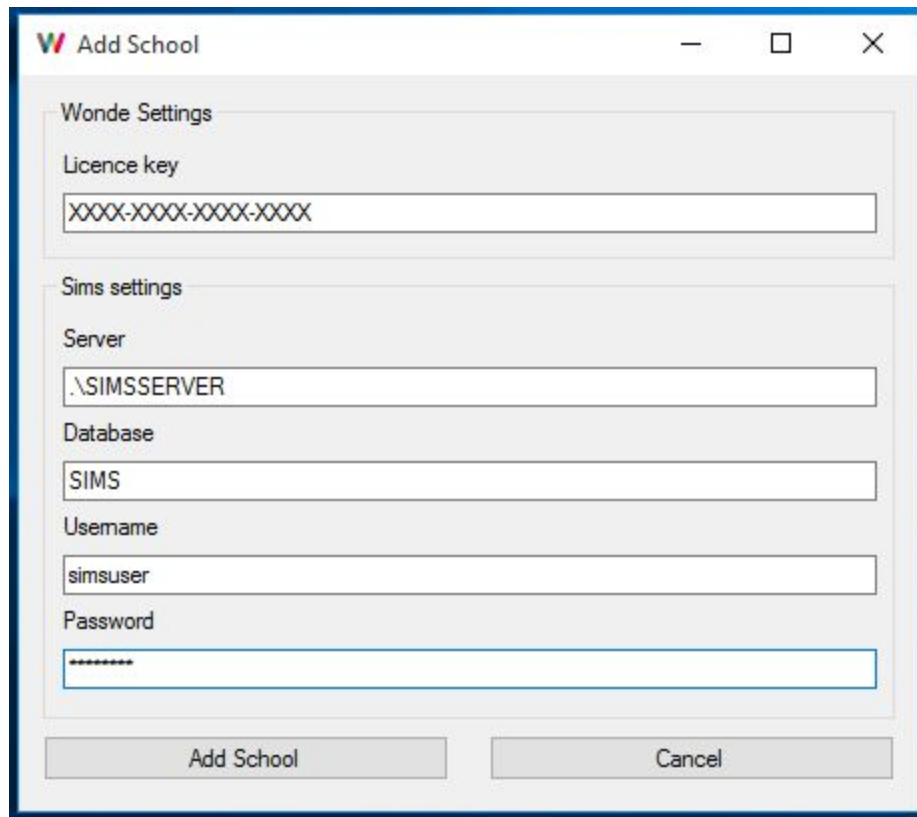

Prerequisites

Please make sure that all of the requirements outlined in "Wonde - Capita SIMS Requirements" document are met before attempting to install Wonde on your server.

Installing

1. Login to SIMS.net as a System Manager
2. Create a new user with the following details:
    a. Forename: wonde
    b. Surname: user
3. Add the following groups to the newly created user:
    a. Personnel Officer
    b. School Administrator
    c. Senior Management Team
    d. Third Party Reporting
    e. Assessment Co-Ordinator
4. Copy the username and password, save the user, and log out.
5. Attempt to login as the Wonde user to check the account was created successfully.
6. Run the *WondeInstaller.msi* file follow the Wizard accepting the default values.
7. Navigate to the Wonde folder within your computer's program files folder.
8. Run the wyupdate.exe file to make sure Wonde is up-to-date. If an update is available follow the update Wizard.
9. Run *Wonde.exe* with administrator permissions.
10. Click Settings > Site licence and enter the site licence provided by Wonde.

11. Click add school and fill in the settings as shown in the picture below.
    a. Licence Key: Provided by Wonde
    b. Server: Server hosting SIMS database
    c. Database: Name of the SIMS database
    d. Username: Username created in step 2-4
    e. Password: Password created in step 2-4

12. Navigate to the computer's services control panel

13. Restart / Start "Wonde recovery service"

14. Restart / Start "Wonde comms service"

15. A Wonde technician is required to confirm that data is being successfully received.
